i) Concluded studies

The Council has methodically completed proving on 132 drugs which includes 97 of plant source, 09 animal source, 23 chemical source, 01 sarcodes and 02 nosodes. Among these 132 drugs, 21 drugs are new and extensively proved by the Council, while 105 partially proved drugs are systematically proved by the Council. There are 06 drugs existing in the literature which were reprovved by the Council.

The details of these 132 drugs proved by CCRH and list of 21 new and extensively proved drugs are given in Table 1 and Table 2 respectively.
